Youngest Admiral in English
Navy Succeeds in Most Important
Naval Battle of War—
New Movement in East.

A new attack on the Russian armies has been instituted by Austria and Germany in the east in accordance with the plan believed in Petrograd to have been adopted by the Teutonic allies. Austrian forces have struck at their opponents all along their 300 miles of front, but so far as is known in Petrograd, no important results have been achieved. The object of the attack apparently is to relieve Hungary from possible invasion by clearing the Russians from Galicia, Bukovina and northern Hungary. Vienna reports state that the Russian forces already have been checked in Bukovina. Desperate fighting at close quarters is in progress in central Poland, where many men have died from the cold. The most determined effort of the opposing forces have not resulted in breaking the deadlock there.

On the western battlefield severe encounters continue in Alsace and the Argonne. Neither the French nor the German statements of today claim marked success, although the Berlin communication states that on the heights north of Sennheim, in Alsace, the French were repulsed with heavy losses. The German statement reports the loss of a trench near Berry Au Bac.

According to Vienna reports, the Austrians have administered a definite check to the invading Russian army in Bukovina. An official statement from the Austrian capital today, however, says merely that quiet prevails after the successful battles in Bukovina and makes no mention of the hurried Russian retreat and heavy losses reported previously. The statement shows that the Russians again succeeded in penetrating the passes of the Carpathians.

The defense of the garrison at Przemyel, Galicia, one of the dramatic features of the war in the east, is said at Vienna to have been carried on with such success that Russian assaults upon the city have virtually ceased. The siege has lasted for month after month.

London, Jan. 25.—Yesterday's naval engagement in the North sea has aroused much more enthusiasm among the British public than either the fighting of Heligoland or off the Falkland islands, although both of these engagements perhaps loomed larger in actual results.

To the English people the combat of yesterday means the triumph of their long time confidence in their big fleet and it calms the fear of the east coast of frequent repetition of the "dog fight" which has been the subject of David Beatty, the youngest admiral in the British navy, has become the most popular hero of the war.

German Claim Denied.
Germany official reports on Sunday's night admit the sinking of the cruiser Bluecher, but offsets this loss with the assertion: "According to information available, one British battle cruiser was sunk." This statement has been directly denied by the British admiralty, which says clearly: "No British ships have been lost."

No important developments in the last fighting on either front have been reported in London, but some improvement in the weather in the west has resulted in considerable action, however, has thus far produced no notable results.

The contending forces in Bukovina are forming for a new battle and the Austrians claim the advantage in the preliminary skirmishes. The Austrians claim also that they have driven back the Russian advance through some of the Carpathian passes.

Turks Suffer Reverse.
The Turks, according to London reports, have suffered another reverse in Rhodesian in Turkish territory. The question of food supplies is now being considered urgently in both London and Berlin. The British government has appointed a cabinet commission to consider the matter. The labor party has demanded the government to take over control of British shipping.

As to the food situation in Germany, the Berlin press is re-enforcing the demands voiced at a mass meeting some time ago that the government should nationalize all stocks of food. The report also has come from Hungary, during one of which the governor of Croatia was badly wounded and his palace burned down.

Paris, Jan. 25.—The report on the progress of the fighting given out today refers to encounters of minor importance only.

No decisive engagements have occurred anywhere on the line. There has been the customary artillery exchanges coupled with the taking of a few prisoners and the driving back of counter attacks.

Claims British Loss.
Berlin, via London, Jan. 25.—The following official announcement of the naval engagement in the North sea yesterday was given out in Berlin:

AIR RAIDS FUTILE,
SAYS HUDSON MAXIM

Hudson Maxim.

Hudson Maxim, the famous inventor and war expert, declares that the recent German air raid on England demonstrates the impracticability of the Zeppelin as an engine of war. One hundred Zeppelins a day might attack London, and even if successful on each visit could cut down the city's normal growth only a little more than half, says Maxim.

During the advance of our armored cruisers, Seydlitz, Derfflinger, Moltke and Blücher, which were accompanied by four small cruisers and two flotillas of torpedo boats, while steaming in the North Sea, these vessels became engaged with the British detachment composed of five battle cruisers, several small cruisers and 25 torpedo boat destroyers. The engagement after three hours' time at a point 70 miles northwest of Heligoland and retroced.

According to information available one of our armored cruisers, the Blücher, was sunk. All the other German ships returned to port. (Signed) Von Behnske.

Berlin Statement.
Berlin, Jan. 25.—Sanguinary fighting continues in Alsace, according to the official statement given out by the German general army headquarters today. The Germans claim to have repulsed all attacks in this region and that the French have suffered heavy losses. In the center of the battle line in France the Germans concede the loss of a trench southwest of Berry Au Bac.

In East Prussia the Germans claim to have inflicted heavy losses on the Russians in engagements northeast of Gumbinnen, about twenty miles west of the Russian border.

Buckowina Campaign.
London, Jan. 25.—Although Vienna reports via Amsterdam enlarge upon Austrian successes in Bukowina, claiming that the Russians are retreating with heavy losses of munitions and prisoners, a wireless dispatch from Vienna early today, giving an official communication issued there, says only this about the fighting in that region:

"In Bukowina quiet reigns after our last successful battles."

The communication also tells of fighting in the Carpathians as follows:

"In the Carpathians the Russians were driven out of several trenches which they had pushed forward south of the passes."

Amsterdam, Jan. 25.—The British air raid last week on the town of Essen resulted in the destruction of 400 war automobiles, according to a correspondent of the Handelsblad. These cars were in a repair shop which was wrecked by the British bombs. The loss of this large shop and its elaborate equipment, the correspondent continues, has been a serious blow and the Germans have been compelled to take over a private automobile factory at Aix-La-Chapelle, where hundreds of Dutch workmen have obtained employment.

Appleton, Jan. 25.—Under orders of the city attorney, the police took possession of the armory this morning and two officers have been kept on guard inside the building since six o'clock this morning to prevent a gathering of the anti-Catholics. City Attorney H. D. Ryan said this morning that the city would not allow a meeting of any kind at the armory tonight, although a meeting could be held at some other place provided pictures were not shown or talk indulged in which would be liable to incite riot.

George Busse, who was to have lectured here Saturday night, has not shown up as yet. He telegraphed from Split Rock, Wis., three minutes before his train left Saturday, that he was coming. The ticket agent there said he sold him a ticket. Busse has made numerous enemies and it is thought he has been kidnapped.

American Minister at Brussels Contin-

lief Work—Sovereignty
Issue Avoided.

[BY ASSOCIATED PRESS.]
Washington, Jan. 25.—The United States sent a formal note to Germany which, without discussing the sovereignty of Belgium, expressed a willingness to make such arrangements as will be necessary with the German military authorities in de facto control of Belgian territory for the continuance of American consular service there.

The American note should have been delivered in Berlin today. Avoid Control Issue.

Although the first note to Germany did not explicitly raise the issue, officials of the Washington government in making their reply carefully avoided any expressions which could be construed as a political recognition of Germany's control in Belgium.

The decision of the United States to continue its consular service in Belgium is a significant step, South American governments which instructed their diplomatic representatives here to discuss it in the Pan-American Union. The note from the German foreign office sent identically to all neutral governments announced that the exequaturs or certificates of authority of all neutral consuls had expired.

No reference was made in either the German note or the American reply to the status of diplomatic officers. The American minister, Brand White, will continue at Brussels where he is in active charge of the Belgian relief work.

In its reply the United States declared that it considers a consul not a diplomat, and that the government representative who deserves permission to do business irrespective of his legal right from the authorities in direct control of the district in which he is assigned. In view of the German military occupation the United States further asserts that it is not inclined to question at this time the right of Germany to suspend exequaturs.

Belgian Exequaturs Suspended.
The language of the American note reveals that this government considers the exequaturs originally issued by the Belgian government to have been "suspended" and not "expired" as characterized in the German communication.

White not questioning the German government's military occupation, the American note presumes that the American consular officers at Brussels, Antwerp and Liege are, or will be, agreeable to the German authorities. If they are not, the communication asked that the Washington government be promptly informed. It does not state whether new consuls would in that case be designated to replace them.

British Violates Hague
Agreement.

[BY ASSOCIATED PRESS.]
Washington, Jan. 25.—Germany protested to the state department today through her ambassador, Count Von Bernstorff, against shipment of American hydroaeroplanes to the European belligerents on the ground that such aircraft are war vessels. A statement issued by the embassy today says:

"The Curtis works at Hammondsport, N. Y., have sold and sent to England the well known hydroaeroplanes of the same type. Thirty-six hydroaeroplanes of a different type are under construction by the same firm. Also Kurze and has ordered a number of these vessels from the Curtis company for use in her navy."

"There is no doubt that from the standpoint of international law hydroaeroplanes have to be considered as war vessels, and that, therefore, by article eight of the green treaty, concluded at the Hague in 1907, neutral countries are prohibited to supply belligerent countries with such vessels. The selling of hydroaeroplanes by the Curtis works, therefore constitutes a violation of neutrality. Hydroaeroplanes are not especially mentioned in the Hague agreement, for the simple reason that this kind of war vessel did not yet exist at that time."

Eye Witness Describes Conditions at
Battle Front in France—Weather
More Favorable.

[BY ASSOCIATED PRESS.]
London, Jan. 25.—There was given out in London today a further recital of conditions at the battle front in France. A synopsis follows:

"The work of the artillery, particularly on the British right, is discussed and it is related that weather conditions are improving. The difficulty of making good roads, which are ground to pieces by heavy motors, is mentioned, and extended denial is given to German reports that the English have used German prisoners as revenging observers. Continuing the observer says:

"The continuous artillery combat almost takes the form of a gain in some parts of the field. As soon as the German batteries start firing, our guns are directed against certain places on the enemy's line, the bombardment of which we know by experience will soon induce him to withdraw his guns and the range of most of the hostile batteries, we generally can reduce them to silence or render their fire comparatively harmless."

On Saturday, Jan. 16, our guns made good practice against the German trenches, and also found an excellent target in a German battalion marching through a forest, and they made direct hits on a convoy and observation station at Volaines. On Sunday the 17th, north of Givenchy, we shelled the German redoubts and forced the garrison to retire. On Monday, the 18th, the British left was heavily shelled without result.

"An alleged German official report declared that a certain German prisoner in the English lines claims that on several different occasions he was forced to ascend in a British aeroplane in his shirt sleeves to point out the German position and drop a bomb."

"The weather is a factor in the situation but it probably would not have appeared unless it was likely to be accepted as true in Germany and in some neutral countries.

"Immense efforts and a great amount of material are being expended to keep roads in repair under the motor traffic. Furthermore, in many cases the paved portion of the roads is so narrow that vehicles are unable to pass each other, consequently it has been necessary to widen the paved surface. The weather is now doing much to improve the roads, improved conditions in the trenches.

"The wind at the height of half a mile has reached a velocity of 90 miles an hour. In spite of this successful airplane flights have been accomplished."

[BY ASSOCIATED PRESS.]
Madison, Jan. 25.—Robert B. Hunter of Hustling, Tex., yesterday left Madison after he had explained his connection with the contest over the will of Francis A. Ogden, millionaire Wisconsin lumberman. He said he had not been arrested in Pittsburgh on Thursday and brought to Madison by a postoffice inspector. He explained that there had been a misunderstanding as to what was wanted of him, but that he had come voluntarily to Madison. Hunter said that he had negotiated with Ogden about the sale of some land after the death of Ogden had written to the attorney for the Ogden estate in an attempt to renew the negotiation.

United States District Attorney Aylward of Madison, said that Hunter's explanation was satisfactory and Hunter started for Pittsburgh.

BUILD GUN TO SHOOT
ACROSS THE CHANNEL

Krupps Manufacture Mammoth Ma-
chine Which Will Send Pro-
jectile Across Dover Straits.

[BY ASSOCIATED PRESS.]
Berlin, via London, Jan. 25.—Remarkable figures regarding a new German naval gun are given by a German artillery expert writing in the Artilleristische Monatshefte.

In discussing an assertion by the London Times that the German navy possessed a gun which carries three miles further than the best British weapon, the writer adds that Krupp's are manufacturing a gun whose projectile weighs 320 kilograms (about a ton) and which develops a muzzle velocity of 440 meters (about 3,700 feet) a second. The expert reckons from these figures that the gun has 38 per cent more muzzle velocity than the British navy's best weapon and has a range of 42 kilometers (about 28 miles) while the channel at Dover is only 33 kilometers (22 miles) wide.

He says the figure, given, if correct, will permit the Germans eventually to command the English coast from Calais for a distance of 9 kilometers (5 miles) inland with the new guns.

Attorneys For Harry Thaw Want Him
Committed to Noted Hospital—
Decision Verdict Set Aside

[BY ASSOCIATED PRESS.]
New York, Jan. 25.—A motion to have Harry K. Thaw sent to Bellevue hospital so that it might be determined whether he was sane, was made today by Thaw's attorneys at his arraignment in the supreme court here on a charge of conspiring with others in effecting the escape from Matteawan asylum in August, 1913. Decision on the motion was reserved.

No attempt was made to obtain Thaw's release from jail. He was remanded back to Tombs prison. Justice Davis announced later that Thaw would be arraigned next Wednesday. Justice will on that date decide the motion to have Thaw sent to Bellevue.

Thaw made his appearance in court accompanied by two prison wardens shortly after eleven o'clock. He remained standing during the greater part of the half hour consumed by the attorney discussing and arguing the motions. Mr. Slaneheld in an arresting that he did not expect to apply for bail, said that it was his intention not to hamper the course of justice or place any obstacles in the path of the law.

PROPOSE EIGHT HOUR PLAN
FOR MENOMINEE SCHOOLS.

[SPECIAL TO THE GAZETTE.]
Menominee, Mich., Jan. 25.—They're docking teachers' pay for tardiness in Milwaukee, and now it is proposed to make Menominee high school students work eight hours a day.

The plan was first suggested at recent teachers' meeting and is expected to be adopted by the board of education within a few days.

It is proposed that sessions shall begin at 8 o'clock in the morning and continue to 5 o'clock in the afternoon, with one hour off for lunch. Class periods will be twice their present length, and a study period under the jurisdiction of a teacher will be established.

Several cities in the country are using this system, including York, N. J., where the plan was first adopted, and Grand Rapids, Mich. John L. Silvernale, superintendent of the local schools, suggested the plan for Menominee.

NEUTRALITY DOCUMENT
ISSUED BY BRYAN IN
DEFENDING WAR TRADE

WILL SELL WAR MUNITIONS TO
ANY NATION—DELIVERY UP
TO THEM SAYS LETTER.

ANSWERS 19 CHARGES

[BY ASSOCIATED PRESS.]
Washington, Jan. 25.—The United States government today issued a lengthy defense of its interpretation of the rights and duties of a neutral in the European war.

A document, 5,000 words long, prepared by President Wilson, Secretary Bryan and Counselor Robert Lansing of the state department, after several days of consultation, was made public in the form of a letter from the secretary of state to Senator Stone of Missouri, chairman of the senate committee on foreign relations.

While the letter is a reply to an inquiry from Senator Stone for information as to a result of complaints made in the press and in letters from various parts of the country charging the Washington government with unfairness to Germany and Austria, it also is intended as a pronouncement of policy on some questions of neutrality previously unexplained.

After answering nineteen separate and specific charges and calling attention to the fact that the United States has promptly taken to task Great Britain as well as Germany and every government which in any way has infringed upon the rights of this country, the letter concludes with the following declaration on the much discussed question of exportation of war munitions:

"If any American citizens, partisans of Germany and Austria-Hungary, feel that this administration is acting in a way injurious to the cause of those countries, let them make their protest from the fact that on the high seas the German and Austro-Hungarian naval power is thus far inferior to the British navy, and that the Austro-Hungarian navy is thus far inferior to the German navy. The United States is not a party to the war, and it is not the duty of a neutral, to prevent contraband from reaching an enemy. Those in this country who sympathize with Germany and Austria-Hungary, appear to assume that some obligation rests upon this government, in the performance of its neutral duty, to prevent the exportation of contraband, to thus equalize the difference due to the relative naval strength of the belligerents. No such obligation exists, and it would be an unconstitutional act of partiality on the part of this government, to adopt such a policy, if the executive had the power to do so."

"If German and Austro-Hungary cannot import contraband from this country, it is not because of this fact, the duty of the United States to close its markets to them, but because the markets of this country are open on equal terms to all the world, to every nation, belligerent or neutral."

During the review of the letter's discussion of the various charges made, the following facts hitherto undisclosed were revealed for the first time:

That the Canadian government recently asked the United States for permission to ship "war equipment" across Alaska to the sea and the request was refused.

That the United States has sent a vigorous protest to France because some German passengers on an American ship, plying between New York and Colombia, were forced by a boarding crew from a French cruiser, to sign a promise not to participate in the war.

That an unwarranted exercise of jurisdiction over American ships in which this government has been accused, was made to another of the allied governments because search was conducted on the high seas on an American ship, and the names of the passengers. The name of the offending vessel or offending government was not revealed.

That on December 15th last, the German ambassador, by direction of his government, delivered a memorandum to the United States government stating that under the general principles of international law, no exception can be taken to neutral states letting war material go to Germany's enemies from or through neutral territory."

That representations were made to both Japan and Great Britain against the continued presence of their warships on American ports and that the protests were in each case heeded.

Disapproved Loans.
That since the announcement of the Washington government's disapproval of war loans, which have been made by foreign governments in this country, a distinction is drawn officially for the first time between loans floated by popular subscription and large credit transactions for the purpose of war supplies, the state department revealing that it has no objection to the latter.

In general way, the letter sets forth that rules of neutrality have been promulgated by the American government without discrimination and have been applied with equal

WOMAN'S PAGE

The Evening Chit-Chat

BY RUTH CAMERON

THE CYNIC KEEPS HOUSE.

The minute the Cynic stepped into the room everybody paused talking to ask, in chorus:

"Still keeping house?"

"No," laughed the Cynic. "Mother has returned to her matrons."

"Well," said Mrs. Author-Man, "what do you think—has the woman who keeps house a snap?"

"No," said the Cynic, promptly. "She hasn't. And she never will. But she works about twice as hard as she needs to, and it's her own fault. I mean just what I say. This has been called the age of efficiency. We find its spirit everywhere, except in the home. What woman, reading of how this task or that task has been systematized—so, for instance, that a bricklayer can lay three times as many bricks as he used to, thinks of applying the idea to her own work?"

"You got that out a book," interposed Molly accusingly.

"Guilty," admitted the Cynic. "I bought a book on efficient housekeeping for my mother. She turned up her nose and she hasn't read it yet, but I have, and I know a lot of things about her waste of time and labor that she wouldn't believe."

The Author-Man's wife snifled, but the Cynic went on serenely. "I know, for instance, that her kitchen is so arranged that she has to take unnecessary steps and that, even as it is, she takes more than she needs to."

One Trip to the Shop, or Ten?

"Suppose you needed certain things at the hardware store, the market and the grocery. Wouldn't you try to do all your shopping at each one at one time, so that you wouldn't have to keep running back and forth between them?"

"Now the average woman has the equivalent of these shops in her kitchen. When she wants a fork she goes to the grocery, for meat to the market, and when she wants tea do in preparing a meal? Go to each once and get all she wants? No sir, she goes to each a half a dozen times."

The Kitchen Delivery Wagon.

"Furthermore, if you could arrange to have the hardware store, the grocery shop and the market so placed that in a direct line of travel, away from and toward home, you would do it. And if you had many things to get, you'd have a wagon carry them if you could. Very well. Yet the average woman does not try to have her shops so arranged, and does not use a tray, which is the kitchen equivalent of a wagon."

"Yes," in answer to the protest of the Author-Man's wife. "I know that every woman can't have her kitchen arranged exactly to suit her, but every woman can control these factors to some extent. And how about the kitchen in your new home, that you were showing us the other day? Do they take efficiency into consideration?"

"Yes," in answer to the protest of the Author-Man's wife. "I know that every woman can't have her kitchen arranged exactly to suit her, but every woman can control these factors to some extent. And how about the kitchen in your new home, that you were showing us the other day? Do they take efficiency into consideration?"

WORK ON BUILDINGS AT FAIR COMPLETED.

San Francisco, Jan. 25.—Work on the Panama-Pacific Exposition's exhibit buildings is now completed. The last building to be finished was the steel frame fireproof Palace of Fine Arts. This building in the form of an arc, 1100 feet in length. It is situated on a large island immediately west of the main group of palaces, and it is regarded as the handsomest building on the grounds. It cost about \$500,000.

RUSSIAN SOLDIER IS BETTER FIGHTER THAN IS POPULARLY BELIEVED

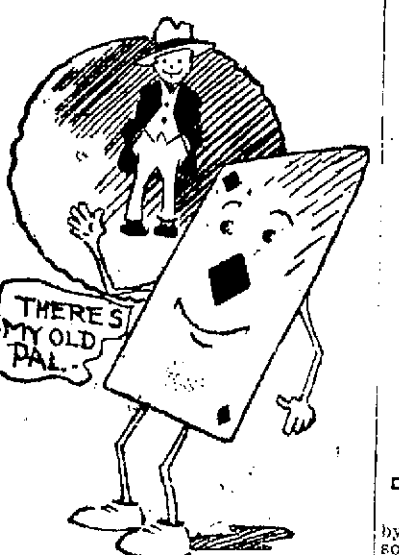

(Correspondence of the A. P.)

Hanover, Jan. 25.—The Russian soldier is better than is popularly believed, according to the letter of a German officer, serving with the armies in Poland.

"We took about 1,000 prisoners," wrote the officer. "So the report said. As a matter of fact, we took about 2,000. The first lot was more or less a thousand, and then, during the day, a hundred were gathered here and another hundred there."

"It is true that out here, we do not think much of a thousand prisoners. But it seems to be different out in the West. I recall, for instance, that we had taken 221 prisoners there, and no doubt, somebody said one Frenchman or an Englishman is the equivalent of ten Russians."

"But that is not true. Among the prisoners taken here there are many well-built and strong fellows with intelligent faces, who believe the stories of 'broken-down' Russian soldiers so generally heard, according to our way of thinking. The trouble is that he is too much of a machine. If the Russian soldiers had our leaders and commissariat, then France would have been able to do without her other allies."

U. S. AMBASSADOR AT BERLIN SAVES LIFE OF THE FATHER OF HER LITTLE ONES

Mrs. Lonsdale and her children.

Private Lonsdale, a British prisoner of war at Doberitz in Germany, was sentenced to death for creating a disturbance in the concentration camp. The sentence would have been carried out and his little children back in England made orphans but for the intervention of James W. Gerard, U. S. ambassador at Berlin. Through Gerard's influence the sentence was commuted to ten years' imprisonment.

Household Hint

THINGS WORTH KNOWING.

Do not throw away the old salt or sugar sacks. Cut them all open and sew them together to make excellent dish cloths and towels.

Removing Cocoa Stains From Table Linen.—Many have difficulty in removing cocoa stains from table linen and napkins. This can be easily overcome by first washing the article stained in clear, cold water without the use of soap, before putting with the clothes to be laundered.

THE TABLE.

Mock Venison.—Place leg of lamb in deep crock and cover with a marinade of two parts vinegar to one of water, one teaspoon cinnamon, half teaspoon cloves and allspice and the same of ginger, two bay leaves, two large sliced onions and three strips of lemon peel. Add paprika and salt liberally. Keep in this marinade five days, turning twice each day and keeping closely covered. Remove what all the ingredients and put in not or large vessel to be simmered. Cut two strips of bacon into small pieces and insert in lamb. Make slits with sharp knife. Keep two cups of liquid to simmer lamb, add one teaspoon extract beef (not necessary), two small gingersnaps and all the ingredients. Brown one tablespoon sugar in a sauce pan, brown two tablespoons flour in butter, add to stew and let all simmer five hours, adding one tablespoon of fruit juice at last. Venison is in season now.

Eggs au Gratin.—Arrange poached eggs in shallow buttered baking dish; sprinkle with grated cheese and pour over all a bechamel sauce. Cover with stale buttered crumbs and sprinkle again with cheese. Brown in oven. Bechamel sauce: One cup milk, one-fourth teaspoon salt, one tablespoon butter (round), three-fourths tablespoon flour (round), dash white pepper. Put butter in sauce pan; melt until bubbles; add flour and seasoning; stir until well blended. Pour on milk slowly, first drawing the sauce pan to a cool part of the range. Should you pour milk all in at once you will probably have a lumpy sauce that you will have to strain. Use whisk is best for stirring a sauce. Just as you send it to the table, infuse with half cup thick cream.

Philly.—Put one cup cold boiled rice into a bowl; add two cups corn meal, half pint milk, two well-beaten eggs, two tablespoons melted butter and half teaspoon salt. Beat to a froth five minutes and spread the batter (not too thick) in buttered baking tins. Bake in a moderate oven.

pieces, split, butter and serve hot.

Parker House Rolls.—Bring to boiling point one pint milk, and into this melt piece of butter, size of an egg. Let milk cool, then mix with it one tablespoon sugar, one pinch salt, one-half cup fresh yeast. Then add enough flour to make a soft dough and let rise over night. In the morning add one-half teaspoon baking soda dissolved in a little warm water. Add flour enough to make about a biscuit. Let rise again until dough is in bulk, turn out on floured bread board and roll out to half inch thick. Cut into rounds, butter tops and fold bread pan, leaving room enough for rising. Cover and put near fire for warming. Then bake in quick oven, tops to glaze just before putting them in the oven.

Boiled Dinner.—Take large head cabbage, take leaves off while washing them in hot water. Have about two pounds of good hamburger, season with pepper, salt, about two tablespoons rice and one large onion, mix well together, then make into small rolls and roll each one in a leaf of cabbage. Boil for one hour.

Miniceme.—Boil gently until tender three pounds lean beef; let it get perfect in hot water. Chop fine. Add next four pounds apples, peeled and chopped, one pound shredded carrots, two pounds seeded raisins, two pounds sultana raisins, one pound currants, two pounds sugar, juice and rinds of two lemons and two oranges, one nutmeg grated, one-half ounce each of cloves and cinnamon, one tea-spoon salt, one quart boiled cider and spiced vinegar. Mix all together and pack in stone jars; will keep for months. More fruit juice may be added as needed. May be heated and canned if desired.

NO MEN LEFT TO PRODUCE OPERA FINDS PARIS DIRECTOR

(Correspondence of The A. P.)

Paris, Jan. 25.—Monsieur Dalmon, under-secretary of Fine Arts, and Monsieur Jacques Rouché, the new director of the opera, have decided that the difficulties in the way of an early reopening are too great. Half of the stage hands have been mobilized, and the staging of most of the operas is such a complicated matter that the breaking in of so great a number of new men is nearly impossible at this time. Furthermore, there is not a single one of the leading tenors left all have been called to the front.

SILENT REVOLUTION NOW GOING ON IN BUSINESS, IDA TARBELL TELLS PROBERS

"A silent revolution is now going on in business," said Ida Tarbell, the famous writer, testifying Tuesday before the U. S. commission on industrial relations in New York city. "Business is today finding out that the common man is the great thing in this world. To give him full justice and opportunity is now the idea of many employers of labor. I believe there are in this country today more employers than ever before who realize that unless the common man is properly cared for, they themselves cannot hope to make their affairs properly successful."

Our instructions to the famous editor of the Boston Cooking School Magazine were: "Get up a book of recipes of the things people like best. Find the best way to make and bake each one. Then write it out so plainly that even an inexperienced housewife can't have a failure."

"The Cook's Book" was the result. Some of the 90 recipes were originated, many of them were improved upon, and all were personally tested by this best known authority on cooking in America, and she tells so clearly how she made everything that one cannot go astray.

While some of the cakes and pastry are elaborate enough for any occasion, the recipes are all thoroughly practical and call for no expensive and unusual ingredients. In addition to telling how to make them, the book is beautifully illustrated in colors showing how to arrange and serve the dishes appetizingly.

More than half a million of "The Cook's Book" are now in use in American households. Yet the demand is constantly increasing. Many send for two or three at a time to give to friends or young housekeepers. Don't depend on borrowing one from a neighbor—have one of your own.

How to Get "The Cook's Book"

In every 25c can of K.C. Baking Powder is packed a colored certificate. Send us one of these certificates (paste it on a postal card if you like) with your name and address plainly written, and "The Cook's Book" will be mailed free of charge. Only one book for each certificate.

DOINGS OF THE VAN LOONS—Father Has Found a Cheap and Easy Cure—

THE MASTER KEY

By John Fleming Wilson

BY SPECIAL ARRANGEMENT FOR THIS PAPER MADE WITH THE UNIVERSAL FILM MANUFACTURING CO. (Copyright, 1914, by John Fleming Wilson.)

No man better fitted for a sinister purpose could have been found. Yet minded with Wilkerson's satisfaction at having such a tool to his hand was a dread of the man himself, and his calm insistence on the privilege of looking the camp when it was captured gave him a sense of nausea.

After all, they were Americans down there in the "Master Key" camp. Through his binoculars he could see Ruth on the porch of the bungalow. Vigas, too, saw her. He took no pains to conceal the cruel interest in his eyes.

The next few days resulted in little advantage to either side. John Dorr could not reopen the mine nor even send in for much needed supplies because of the constant menace of the outlaws, who occasionally fired scattering shots down into the gulch as a warning that they were vigilant.

On the other hand, Wilkerson found it impossible to seize the camp without precipitating a battle, from which he shrank. Deeply involved as he already was in crime, he dreaded to cross the border line which would forever place him beyond the pale and make him an outlaw.

"Ruth oughtn't to be here."

Mexicans were getting restless, and the sardonic Vigas hinted sharply that he was impatient.

"All right," Wilkerson agreed. "We'll just go down to the road in the morning and then walk into the camp. Leave it to me. I'll simply say I've come back to take charge and you are my miners."

Vigas twisted his wiry mustaches. "And then?"

"The men looked each other in the eye. That evil glance was sufficient. John Dorr and Tom Kane, meanwhile, had been in constant consultation. One thing was constantly in their thoughts."

"Ruth oughtn't to be here," John would say dismally. "If it weren't for her we could quickly settle these outlaws, for that's all they are."

"I reckon nobody would cry at the inquest," the cook returned, "if we did get a few of them. But, as you say, the girl is here, and that puts fighting out of the question. Unless they start it," he added cautiously.

"Wilkerson is bound to make some kind of a move mighty soon," said Dorr. "He can't satisfy those fellows of his for long."

Yet when Wilkerson appeared at the entrance to the camp one morning with a motley train of followers Dorr was at a loss to know what to do. Wilkerson was apparently peaceful and expected a peaceful reception. His boldness had almost carried him through when the ignorance and cowardice of one of Vigas' men gave John and Kane, the sorely wished for opening.

"It looks to me as if this was a case for the courts," he said slowly when he had examined Wilkerson's forged deeds. "I knew old Gallon pretty well, and he thought a sight of that Ruth girl. Fact is, he told me he intended her to have the mine and left it to her in his will. Now you toddle along with these papers and want to take it away from her."

"Gallon and I were partners years ago," Wilkerson insisted. "We located this mine together, and when I came back he gave me over my share."

"But you want it all," the sheriff said dubiously.

"Sure, it's all mine," persisted the other. "Didn't Gallon use all the money he got out of it while I was away? And when we came to a settlement he found that the mine wouldn't pay him the owed me."

"I'm simply a peace officer," the sheriff said finally. "I don't know who's in the right. That's for the courts to decide."

"Wasn't I in possession?" demanded Wilkerson. "Haven't I been driven out by force, me and my workmen?"

"From what I've seen of your workmen," was the curt response, "I don't like their looks. And there are tales going around that Vigas is in the country."

"How can I help who's in the country?" demanded Wilkerson, much in-

the walls of the gulch.

The miners had the advantage. They fought from the shelter of their own cabins, and they were united by a common purpose. Their attackers were scattered, were divided between lust for loot and thirst for blood and had no sure refuge nor rendezvous. Yet they would eventually have made the camp untenable had not the thoughtful sheriff prepared a surprise for both parties.

After consultation with his advisers in the county seat he had appealed to the governor on the ground that as one of the opposing forces was Mexican he felt that a superior authority should handle so delicate a situation. The governor had agreed and ordered a troop of cavalry to the "Master Key" to preserve order. It was just when Wilkerson had seen his chance for a grand coup that the troopers arrived.

Ruth, with some of the women, had taken refuge in John's house on the hill, with old Tom Kane as their bodyguard. Wilkerson knew that if he could capture Ruth he could make his own terms. He directed several of his men to make a detour around the hill and effect this. Meanwhile he set fire to a cabin below in order to distract the attention of Dorr and his men.

The ruse had nearly succeeded but for Kane's quickness. Though he had not used his gun for many years, he had lost none of his old-time skill, and when the marauders made their final dash on the porch of the house the cook, with a single glance over his shoulder, shot from the hip. His man tumbled dead at Ruth's feet, and his companions snaked back.

At that instant the cavalry rushed in, and before five minutes were passed their commander had separated the combatants and proceeded to disarm them.

He then called Dorr and Wilkerson to him and curtly stated that his orders were to see that there was no trouble. "What your quarrel is I don't know," he said.

Wilkerson tried to argue, but neither the officer nor the sheriff, who now arrived, would listen to him. They also turned a deaf ear to John Dorr's statement of Wilkerson's crimes, including the kidnapping of Ruth in San Francisco.

"If you have anything against Wilkerson," the sheriff asserted, "swear out a warrant for him. I'll serve it quick enough."

With this John must perforce be satisfied. That evil glance was sufficient. John Dorr and Tom Kane, meanwhile, had been in constant consultation. One thing was constantly in their thoughts.

"Ruth oughtn't to be here," John would say dismally. "If it weren't for her we could quickly settle these outlaws, for that's all they are."

"I reckon nobody would cry at the inquest," the cook returned, "if we did get a few of them. But, as you say, the girl is here, and that puts fighting out of the question. Unless they start it," he added cautiously.

"Wilkerson is bound to make some kind of a move mighty soon," said Dorr. "He can't satisfy those fellows of his for long."

Yet when Wilkerson appeared at the entrance to the camp one morning with a motley train of followers Dorr was at a loss to know what to do. Wilkerson was apparently peaceful and expected a peaceful reception. His boldness had almost carried him through when the ignorance and cowardice of one of Vigas' men gave John and Kane, the sorely wished for opening.

"It looks to me as if this was a case for the courts," he said slowly when he had examined Wilkerson's forged deeds. "I knew old Gallon pretty well, and he thought a sight of that Ruth girl. Fact is, he told me he intended her to have the mine and left it to her in his will. Now you toddle along with these papers and want to take it away from her."

"Gallon and I were partners years ago," Wilkerson insisted. "We located this mine together, and when I came back he gave me over my share."

"But you want it all," the sheriff said dubiously.

"Sure, it's all mine," persisted the other. "Didn't Gallon use all the money he got out of it while I was away? And when we came to a settlement he found that the mine wouldn't pay him the owed me."

"I'm simply a peace officer," the sheriff said finally. "I don't know who's in the right. That's for the courts to decide."

"Wasn't I in possession?" demanded Wilkerson. "Haven't I been driven out by force, me and my workmen?"

"From what I've seen of your workmen," was the curt response, "I don't like their looks. And there are tales going around that Vigas is in the country."

"How can I help who's in the country?" demanded Wilkerson, much in-

the walls of the gulch.

The miners had the advantage. They fought from the shelter of their own cabins, and they were united by a common purpose. Their attackers were scattered, were divided between lust for loot and thirst for blood and had no sure refuge nor rendezvous. Yet they would eventually have made the camp untenable had not the thoughtful sheriff prepared a surprise for both parties.

After consultation with his advisers in the county seat he had appealed to the governor on the ground that as one of the opposing forces was Mexican he felt that a superior authority should handle so delicate a situation. The governor had agreed and ordered a troop of cavalry to the "Master Key" to preserve order. It was just when Wilkerson had seen his chance for a grand coup that the troopers arrived.

Ruth, with some of the women, had taken refuge in John's house on the hill, with old Tom Kane as their bodyguard. Wilkerson knew that if he could capture Ruth he could make his own terms. He directed several of his men to make a detour around the hill and effect this. Meanwhile he set fire to a cabin below in order to distract the attention of Dorr and his men.

The ruse had nearly succeeded but for Kane's quickness. Though he had not used his gun for many years, he had lost none of his old-time skill, and when the marauders made their final dash on the porch of the house the cook, with a single glance over his shoulder, shot from the hip. His man tumbled dead at Ruth's feet, and his companions snaked back.

every resource at his disposal to meet him successfully. Ruth must be protected in her rights. The "Master Key" mine must remain in her possession undisturbed. That would be impossible until Wilkerson was eliminated. And that man was after great stakes; otherwise he would never have ventured so far.

As he debated this inwardly John went over in memory all the events of the brief period since old Thomas Gallon had died, leaving his daughter in his charge. Before his mind's eye ran the pictures of the last scenes and then—

Like a flash it came to him! What was in that letter the old man had so carefully cherished and handed him at the last? Had Gallon foreseen something like this and prepared for it? In his last days had his falling powers concentrated on his single aim and evolved a final safeguard for the "Master Key"?

With the sealed letter in his hand John Dorr stared at the superscription: "Not to be opened until my daughter's eighteenth birthday or before then if her welfare is threatened."

Quickly he tore the envelope open. The inclosure fell out in two portions. He put them together, with a muttered ejaculation at his own carelessness and read the crabbled script:

Silent Valley, Cal., June 20.

Little Girl—Read carefully what I write. On this depends your future welfare.

The "Master Key" mine discovered by me five years ago contained a nother lot of "inestimable worth." The exact location of the lode is written on a slip of paper, which I placed in the head of an Indian doll in an old box chest, which went down with the ship on which I was wrecked.

On the master key, the key to that chest, and which you wear on your neck, is carved the location where the vessel went down. Find that slip of paper and the wealth is yours. Your devoted father, THOMAS GALLON.

Distressing Bronchial Coughs "Hang On" and Weaken.

Foley's Honey and Tar easily raises the phlegm and heals the raw inflamed surfaces.

That tight feeling over your chest, and distressing bronchial cough are usually worse at night, and you lose the sleep you sorely need to keep up your strength.

Foley's Honey and Tar cures that tight feeling and leaves a healing coating as it glides down the throat. The tickling, rasping cough and hoarseness disappear, and the phlegm is raised easily and copiously.

There is more healing in one bottle of Foley's Honey and Tar Compound than in a like quantity of any other cough and cold medicine. It leads to the last drop.

W. J. ELLIAMS, Charlotte, N. C., writes: "My boy, 10 years old, had bronchitis ever since he was a baby. We feared he would go into consumption. I heard of a similar case where Foley's Honey and Tar Compound effected a cure, and bought a bottle. My son commenced to improve after the first few doses, and the first bottle stopped his stubborn cough. Foley's Honey and Tar has given better satisfaction than any medicine I ever used. I think this wonderful medicine has saved the boy's life."

You save money when you buy Foley's Honey and Tar Compound, because just a few doses stop the cough and cold, one bottle lasts a long time, and the last dose is as good as the first. Refuse substitutes.

Dinner Stories

On a crowded street car one wet, miserable night not long ago a coin was heard to drop. As nearby passengers craned their necks an old man stooped and picked it up. "Any-

body lose a five-dollar piece?" he asked anxiously. Nine passengers hurriedly searched their pockets and shouted: "I have." "Well, I've found a penny toward it," said the old man.

An old negro was recently brought before a justice. It seemed that Uncle Mose had fallen out of a building while in the act of entering the house of the dog's owner.

"Look here, Uncle Mose," the justice said informally, "didn't I give you ten days last month for this same thing? It was the same luncheon you were trying to get into. What have you got to say for yourself?"

"Uncle Mose scratched his head. 'Master, yo' sent me ter de chain-gang fer tryin' ter steal some chickens, didn't ye?'"

"Yes; that was the charge."

"An' don't de law say yo' can't be charged twice wid de same 'tense?'"

"That no man shall be twice placed in jeopardy for the identical act, yes."

"Den, sah, yo' des has ter let me go, sah. Ah war after de same chickens, sah."

"My husband," remarked a Philadelphia matron to a group of friends, "was a confirmed smoker with a tobacco heart when I married him a year ago, but today he never touches the weed."

"Good," said one of the group. "To break off a lifetime habit requires a strong will."

"Well, that's what I've got," said the wife.

FACE A SIGHT WITH ERUPTION RESINOL CURED

Philadelphia, Pa., Dec. 5, 1913: "I had a small pimple on the side of my face, and it kept getting larger and larger. It had spread over one cheek, and as it would spread water would come from it and every place the water would touch, another sore would form. It itched and burned and my face was a sight. I used several salves and ointments but were recommended, but none helped, until I tried Resinol Soap and Resinol Ointment, which relieved me at once, and after using it about two weeks, my face was entirely clear. I cannot praise Resinol enough." (Signed) Mrs. Rose Muller, 1313 Snyder Ave.

Physicians have prescribed Resinol for nineteen years and every druggist sells Resinol Soap (25c.), and Resinol Ointment (50c. and \$1.). Don't be deceived by the useless "substitutes." For free trial, write to Dept. KK, Resinol, Baltimore, Md.

A RAW, SORE THROAT

Eases Quickly When You Apply a Little MUSTEROLE.

And MUSTEROLE won't blister like the old-fashioned mustard-plaster. Just spread it on with your fingers. It penetrates to the sore spot with a gentle tingle, loosens the congestion and draws out all soreness and pain.

MUSTEROLE is a clean, white ointment made with oil of mustard. There's nothing like it for quick relief for Sore Throat, Bronchitis, Tonsillitis, Croup, Stiff Neck, Asthma, Neuralgia, Headache, Congestion, Pleurisy, Rheumatism, Lumbago, Pains and Aches of the Back or Joints, Sprains, Sore Muscles, Bruises, Chills, Frost-bitten Feet, Colds on the Chest (it often prevents Pneumonia). Nothing like MUSTEROLE for croupy children.

At your druggist's, in 25c and 50c jars, and a special large hospital size for \$2.50.

Be sure you get the genuine MUSTEROLE. Beware of imitations—get what you ask for. The Musterole Company, Cleveland, Ohio.

St. Louis the Fur Center.

Three-fourths of all furs trapped on the North American continent are shipped to St. Louis houses to be sold.

FORTY YEARS AGO

The Janesville Daily Gazette, Jan. 25, 1875.—There is a man worth \$100,000 living in the city who went to a grocery store on Saturday and purchased a pound of butter and three eggs for family use.

A party of young men and women came up from Clinton on Saturday evening to see the show at the opera house. When they reached the door of the opera house they were met by Officer Keating who politely informed them that no females would be admitted under any circumstances. The ladies were sent to a hotel and the young men saw the show alone.

We received a communication from W. P. Elliott today to the effect that he could furnish a "git" of a stal-

lion, named Robert Fulton, owned in Janesville, that can beat Davis & Wentworth's Goldust, one mile or best 2 in 3 or 3 in 5, mile heats, one week from today, or any day they name between today and the 10th day of May; considering, of course, good day and good track. Must be trotted on Janesville course and under the rule of the National Association. Furthermore Elliott will bet a hundred dollars and a basket of wine.

We can't find anyone that will acknowledge that they were at the opera house Saturday evening to see the Can-Can.

A cock-fight was furnished our citizens recently. Of course it was attended by a "large and appreciative audience."

SCORN PREACHER WITH MANY WIVES

Mrs. Edward F. Vaughn and Milton Darnell.

Two persons who are without sympathy for Rev. James Morrison Darnell, the Kenosha (Wis.) minister who is in trouble because he "married" three women, are Mrs. Edward F. Vaughn of Chicago, mother of the girl who figures as Darnell's third wife, and Milton Darnell of Elmwood, Ill., father of the preacher.
